

LCB Workshop Preparation (2)

ATLAS Software Workshop

May 1999

Jürgen Knobloch

Slides on: <http://nicewww.cern.ch/atlas/wwwslides/lcbws990521/index.htm>

Themes and what ATLAS contributes

- **Architecture, data persistency**
 - ATLAS event scheme
 - Detector description
 - Rapporteur from ATLAS?
- **Technology tracking**
 - Leave to IT
- **World wide computing**
 - ATLAS part of MONARC
 - Rapporteur from ATLAS?
- **Simulation**
 - Most advanced users of GEANT4
 - Rapporteur from ATLAS!
- **Analysis tools**
 - Experience with several tools
 - ATLAS part of MONARC
 - Rapporteur from ATLAS?

Next meeting of the organizing committee: 8 June

Conclusions

- Each session introduced by a “rapporteur”
 - ATLAS first priority is SIMULATION
 - Then
 - > ANALYSIS - ARCHITECTURE - WORLD-WIDE COMPUTING
- Contributions from the community by early July
 - No papers - but rather abstracts and web links to get the rapporteurs interested
 - Start thinking about it now
 - I will collect proposals
 - ATLAS deadline mid June?
