Concerne/Subject: Offline computing manpower for ATLAS

Dear Colleague,

in order to allow for a more concrete planning of the offline computing in ATLAS, I would like to get some estimate of the available manpower in your institute.
The questionnaire is available on the web :
As HTML-form: http://atlasinfo.cern.ch/Atlas/GROUPS/SOFTWARE/q97.html
If your web-browser does not allow HTML-forms or posting by mail, please fill the questionnaire below and send it back to me by FAX.

Name of institution	

Person answering	

Please include only people who can devote at least 1/3 of their time to computing.
FTE = Full time equivalent

Type of work	1997-1999 FTE/year	2000-2004 FTE/year
Detector specific offline software development (simulation, reconstruction, graphics)		
General offline software development		
Computing infrastructure support (system management, networking, …)		

If you plan to contribute to detector-specific software development, please indicate the system(s):

- ❑ Inner detector
- ❑ Liquid Argon Calorimeter
- ❑ Tile Calorimeter
- ❑ Muon System

Please note that at the current moment, I am more interested in rapid answers in order to get a global overview of the available resources. I will NOT take your answers as firm commitments.

Many thanks for your collaboration.

With my best regards

Jürgen Knobloch
