

TTC Workshop - Aims

- ◆ **Common project started several years ago**
- ◆ **A lot of developments done**
 - Optical components
 - ASIC
 - Modules
- ◆ **Now time to go towards production for some of the components**
 - Procurement and maintenance/support issues
- ◆ **Review the functionality**
 - Although developments were made in collaboration with users this is useful
- ◆ **Define the quantities**
 - Very important for the TTCrx
 - Necessary for the TTCvi
- ◆ **Define the schedule**
 - Different from one experiment to the others
- ◆ **Define the central support**
 - What, how
